

## Inspired Grounds

### ***What makes our products so special?***

#### ***Our Coffee:***

*Our custom coffee roaster uses only the finest Arabica beans, roasting coffee in small batches to ensure freshness. Our roast-to-order coffee guarantees superior quality. Many of our coffees are fair-trade which helps farming families across Latin America, Africa and Asia to improve the quality of life in their communities. Fair Trade principles include fair price, fair labor conditions, community development and environmental sustainability.*

#### ***Our Tea:***

*Our tea is produced by a leading importer of the world's finest teas. The beautiful tea pyramid bags we sell offer the luxury of fine tea with the convenience of a tea bag. The pyramid bags are designed to give full-leaf tea room to unfold. Exquisite flavor and aroma are released in a way previously only possible when brewing loose tea.*

#### ***Our Hot Chocolate:***

*Our delicious fair trade hot chocolate is produced in Ghana where for generations European and American chocolatiers have bought their cocoa beans. In order to support Ghanaian cocoa farmers our supplier produces their gourmet chocolate entirely in Ghana which results in enhanced foreign exchange revenue for Ghana. They have proven themselves to be one of the most successful and creative joint ventures between the U.S. and Ghana. What's more is research now shows that there are cardio-protective benefits to chocolate consumption!*
